RE: Maine Pollutant Discharge Elimination System (MEPDES) Permit #ME0101443  
Maine Waste Discharge License (WDL) #W000678-5M-I-M  
FINALIZED Permit / WDL Minor Revision

Enclosed, please find a copy of your final MEPDES permit and Maine WDL Minor Revision, which was approved by the Department of Environmental Protection. Please read the permit/license and its attached conditions carefully. You must follow the conditions in the order to satisfy the requirements of law. Any discharge not receiving adequate treatment is in violation of State law and is subject to enforcement action.

Any interested person aggrieved by a Department determination made pursuant to applicable regulations, may appeal the decision following the procedures described in the attached DEP FACT SHEET entitled “Appealing a Commissioner’s Licensing Decision.”

Sincerely,

Bill Hinkel  
Division of Water Quality Management  
Bureau of Land and Water Quality  
bill.hinkel@maine.gov

DEPARTMENT ORDER

IN THE MATTER OF

TOWN OF HARTLAND
HARTLAND, SOMERSET COUNTY, MAINE
PUBLICLY OWNED TREATMENT WORKS
#ME0101443
#W000678-5M-I-M

) MAINE POLLUTANT DISCHARGE
) ELIMINATION SYSTEM PERMIT
) AND
) WASTE DISCHARGE LICENSE
) MINOR REVISION

Pursuant to the provisions of the Federal Water Pollution Control Act, Title 33 USC, §1251, Conditions of licenses, 38 M.R.S.A. § 414-A, and applicable regulations, the Department of Environmental Protection (Department) has considered a March 25, 2010 request made by the TOWN OF HARTLAND (Town) for a minor permit revision to Waste Discharge License (WDL) #W000687-5M-H-R / Maine Pollutant Discharge Elimination System (MEPDES) permit #ME0101443, which was issued to the Town on December 6, 2007. With its supportive data, agency review comments, and other related materials on file and FINDS THE FOLLOWING FACTS:

MINOR PERMIT REVISION SUMMARY

The Town has requested a reduction in the minimum monitoring frequency requirement for total residual chlorine (TRC) from twice per day, which was established in Special Condition A, Effluent Limitations and Monitoring Requirements, of the 12/6/07 permit, to once per day.
CONCLUSIONS

BASED on the findings in the attached Fact Sheet dated April 16, 2010, and subject to the Conditions listed below, the Department makes the following CONCLUSIONS:

1. The discharge, either by itself or in combination with other discharges, will not lower the quality of any classified body of water below such classification.

2. The discharge, either by itself or in combination with other discharges, will not lower the quality of any unclassified body of water below the classification which the Department expects to adopt in accordance with state law.

3. The provisions of the State’s antidegradation policy, *Classification of Maine waters*, 38 M.R.S.A. § 464(4)(F), will be met, in that:
   
   (a) Existing in-stream water uses and the level of water quality necessary to protect and maintain those existing uses will be maintained and protected;

   (b) Where high quality waters of the State constitute an outstanding national resource, that water quality will be maintained and protected;

   (c) The standards of classification of the receiving water body are met or, where the standards of classification of the receiving water body are not met, the discharge will not cause or contribute to the failure of the water body to meet the standards of classification;

   (d) Where the actual quality of any classified receiving water body exceeds the minimum standards of the next highest classification that higher water quality will be maintained and protected; and

   (e) Where a discharge will result in lowering the existing water quality of any water body, the Department has made the finding, following opportunity for public participation, that this action is necessary to achieve important economic or social benefits to the State.

4. The discharges will be subject to effluent limitations that require application of best practicable treatment as defined in 38 M.R.S.A. § 414-A(1)(D).
ACTION

THEREFORE, the Department hereby APPROVES the above noted request of the TOWN OF HARTLAND for the MINOR REVISION (reduction in the minimum monitoring frequency requirement for total residual chlorine to once per day) to Waste Discharge License #W000687-5M-H-R / Maine Pollutant Discharge Elimination System permit #ME0101443, which was issued to the Town on December 6, 2007, SUBJECT TO THE ATTACHED CONDITIONS, and all applicable standards and regulations including:

2. The attached Special Conditions, including any effluent limitations and monitoring requirements.

3. All terms and conditions in combination WDL #W000687-5M-H-R / MEPDES permit #ME0101443, dated December 6, 2007, not modified by this permitting action remain in effect and enforceable.

4. This minor revision shall expire on December 6, 2012, concurrent with the 12/6/07 WDL / MEPDES permit.

PLEASE NOTE ATTACHED SHEET FOR GUIDANCE ON APPEAL PROCEDURES

This permit has been digitally signed by Andrew C. Fisk on behalf of Commissioner David P. Littell. It is digitally signed pursuant to authority under 10 M.R.S.A. § 9418. It has been filed with the Board of Environmental Protection as of the signature date. 2010.04.16 13:49:41 -04'00'

Date of minor revision request: March 25, 2010

This Order prepared by William F. Hinkel, BUREAU OF LAND & WATER QUALITY
SPECIAL CONDITIONS

A. EFFLUENT LIMITATIONS AND MONITORING REQUIREMENTS

1. The permittee is authorized to discharge secondary treated sanitary and tannery process waste waters from Outfall #001A to the West Branch of the Sebasticook River at Hartland. Such discharges shall be limited and monitored by the permittee as specified below:

<table>
<thead>
<tr>
<th>Effluent Characteristic</th>
<th>Discharge Limitations</th>
<th>Monitoring Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Monthly Average as specified</td>
<td>Weekly Average as specified</td>
</tr>
</tbody>
</table>

| Total Residual Chlorine [50060] | --- | --- | --- | 0.1 mg/L [19] | --- | 0.3 mg/L [19] | 1/Day [01/01] | Grab [GR] |
| Oil and Grease [03582] | 188 lbs./day [26] | --- | 188 lbs./day [26] | 15 mg/L [19] | --- | 15 mg/L [19] | 1/Month [01/30] | Grab [GR] |

The italicized numeric values bracketed in the table and in subsequent text are code numbers that Department personnel utilize to code the monthly Discharge Monitoring Reports.

1. MINOR PERMIT REVISION SUMMARY

On March 25, 2010, the Maine Department of Environmental Protection (Department) received a written request from the Town of Hartland (Town) for a minor revision to combination Waste Discharge License (WDL) #W000678-5M-H-R / Maine Pollutant Discharge Elimination System (MEPDES) permit #ME0101443, which was issued to the Town on December 6, 2007. The minor revision requested was for a reduction in the minimum monitoring frequency requirement for total residual chlorine (TRC) from twice per day, which was established in Special Condition A, Effluent Limitations and Monitoring Requirements, of the 12/6/07 permit, to once per day. The monthly average discharge flow limitation established in the 12-6-10 permit is 1.5 million gallons per day (MGD). The twice per day monitoring frequency established in the 12-6-10 permit is based on Department guidance for publicly owned treatment works (POTWs) permitted to discharge between 1.5 and 5.0 MGD.

A summary of effluent TRC data as reported on the monthly DMRs for calendar years 2005-2009 (data for May – September corresponding with seasonal bacteria limitations) (# DMRs = 24) indicates the effluent TRC concentration discharge has ranged from 0.02 mg/L to 0.28 mg/L with an arithmetic mean of 0.13 mg/L. The discharge has been in compliance with the daily maximum TRC permit limitation of 0.3 mg/L 100% of the time during said reporting period.

The long-term average (January 2005 – December2009) monthly average discharge flow for this facility is 0.45 MGD.

In consideration of the facility’s compliance history with the numeric, technology-based effluent limitations for TRC, the written request for a reduction in monitoring frequency, the Department is granting a reduction in the monitoring frequency for TRC from twice per day to once per day. This frequency is consistent with Department guidance for POTWs permitted to discharge between 0.1 and 0.5 MGD.

2. CONDITIONS OF PERMITS

Conditions of licenses, 38 M.R.S.A. § 414-A, requires that the effluent limitations prescribed for discharges, including, but not limited to, effluent toxicity, require application of best practicable treatment (BPT), be consistent with the U.S. Clean Water Act, and ensure that the receiving waters attain the State water quality standards as described in Maine's Surface Water Classification System. In addition, Certain deposits and discharges prohibited, 38 M.R.S.A., § 420 and Surface Waters Toxics Control Program, 06-096 CMR 530 (effective October 9, 2005) require the regulation of toxic substances not to exceed levels set forth in Surface Water Quality Criteria for Toxic Pollutants, 06-096 CMR 584 (effective October 9, 2005), and that ensure safe levels for the discharge of toxic pollutants such that existing and designated uses of surface waters are maintained and protected.
3. RECEIVING WATER QUALITY STANDARDS

Classification of major river basins, 38 M.R.S.A., § 467(4)(H)(2)(b) classifies the West Branch of the “Sebasticook River, West Branch main stem, from the outlet of Great Moose Lake to its confluence with the East Branch, including all impoundments”, which includes the river at the point of discharge, as Class C waters. Standards for classification of fresh surface waters, 38 M.R.S.A., § 465(3) describes the standards for Class C waters.

4. DISCHARGE IMPACT ON RECEIVING WATER QUALITY

As permitted, the Department has determined the existing water uses will be maintained and protected and the discharge will not cause or contribute to the failure of the water body to meet standards for Class C classification.

5. DEPARTMENT CONTACTS

Additional information concerning this permitting action may be obtained from, and written comments sent to:

William F. Hinkel
Division of Water Quality Management
Bureau of Land & Water Quality

DEP INFORMATION SHEET
Appealing a Commissioner’s Licensing Decision

Dated: May 2004
Contact: (207) 287-2811

SUMMARY
There are two methods available to an aggrieved person seeking to appeal a licensing decision made by the Department of Environmental Protection’s (DEP) Commissioner: (1) in an administrative process before the Board of Environmental Protection (Board); or (2) in a judicial process before Maine’s Superior Court. This INFORMATION SHEET, in conjunction with consulting statutory and regulatory provisions referred to herein, can help aggrieved persons with understanding their rights and obligations in filing an administrative or judicial appeal.

I. ADMINISTRATIVE APPEALS TO THE BOARD

LEGAL REFERENCES

HOW LONG YOU HAVE TO SUBMIT AN APPEAL TO THE BOARD
The Board must receive a written notice of appeal within 30 calendar days of the date on which the Commissioner’s decision was filed with the Board. Appeals filed after 30 calendar days will be rejected.

HOW TO SUBMIT AN APPEAL TO THE BOARD
Signed original appeal documents must be sent to: Chair, Board of Environmental Protection, c/o Department of Environmental Protection, 17 State House Station, Augusta, ME 04333-0017; faxes are acceptable for purposes of meeting the deadline when followed by receipt of mailed original documents within five (5) working days. Receipt on a particular day must be by 5:00 PM at DEP’s offices in Augusta; materials received after 5:00 PM are not considered received until the following day. The person appealing a licensing decision must also send the DEP’s Commissioner and the applicant a copy of the documents. All the information listed in the next section must be submitted at the time the appeal is filed. Only the extraordinary circumstances described at the end of that section will justify evidence not in the DEP’s record at the time of decision being added to the record for consideration by the Board as part of an appeal.

WHAT YOUR APPEAL PAPERWORK MUST CONTAIN
The materials constituting an appeal must contain the following information at the time submitted:

1. Aggrieved Status. Standing to maintain an appeal requires the appellant to show they are particularly injured by the Commissioner’s decision.

2. The findings, conclusions or conditions objected to or believed to be in error. Specific references and facts regarding the appellant’s issues with the decision must be provided in the notice of appeal.

3. The basis of the objections or challenge. If possible, specific regulations, statutes or other facts should be referenced. This may include citing omissions of relevant requirements, and errors believed to have been made in interpretations, conclusions, and relevant requirements.

4. The remedy sought. This can range from reversal of the Commissioner’s decision on the license or permit to changes in specific permit conditions.
5. *All the matters to be contested.* The Board will limit its consideration to those arguments specifically raised in the written notice of appeal.

6. *Request for hearing.* The Board will hear presentations on appeals at its regularly scheduled meetings, unless a public hearing is requested and granted. A request for public hearing on an appeal must be filed as part of the notice of appeal.

7. *New or additional evidence to be offered.* The Board may allow new or additional evidence as part of an appeal only when the person seeking to add information to the record can show due diligence in bringing the evidence to the DEP’s attention at the earliest possible time in the licensing process or show that the evidence itself is newly discovered and could not have been presented earlier in the process. Specific requirements for additional evidence are found in Chapter 2, Section 24(B)(5).

**OTHER CONSIDERATIONS IN APPEALING A DECISION TO THE BOARD**

1. *Be familiar with all relevant material in the DEP record.* A license file is public information made easily accessible by DEP. Upon request, the DEP will make the material available during normal working hours, provide space to review the file, and provide opportunity for photocopying materials. There is a charge for copies or copying services.

2. *Be familiar with the regulations and laws under which the application was processed, and the procedural rules governing your appeal.* DEP staff will provide this information on request and answer questions regarding applicable requirements.

3. *The filing of an appeal does not operate as a stay to any decision.* An applicant proceeding with a project pending the outcome of an appeal runs the risk of the decision being reversed or modified as a result of the appeal.

**WHAT TO EXPECT ONCE YOU FILE A TIMELY APPEAL WITH THE BOARD**

The Board will formally acknowledge initiation of the appeals procedure, including the name of the DEP project manager assigned to the specific appeal, within 15 days of receiving a timely filing. The notice of appeal, all materials accepted by the Board Chair as additional evidence, and any materials submitted in response to the appeal will be sent to Board members along with a briefing and recommendation from DEP staff. Parties filing appeals and interested persons are notified in advance of the final date set for Board consideration of an appeal or request for public hearing. With or without holding a public hearing, the Board may affirm, amend, or reverse a Commissioner decision. The Board will notify parties to an appeal and interested persons of its decision.

**II. APPEALS TO MAINE SUPERIOR COURT**

Maine law allows aggrieved persons to appeal final Commissioner licensing decisions to Maine’s Superior Court, see 38 M.R.S.A. § 346(1); 06-096 CMR 2.26; 5 M.R.S.A. § 11001; & MRCivP 80C. Parties to the licensing decision must file a petition for review within 30 days after receipt of notice of the Commissioner’s written decision. A petition for review by any other person aggrieved must be filed within 40-days from the date the written decision is rendered. The laws cited in this paragraph and other legal procedures govern the contents and processing of a Superior Court appeal.

**ADDITIONAL INFORMATION**

If you have questions or need additional information on the appeal process, contact the DEP’s Director of Procedures and Enforcement at (207) 287-2811.

**Note:** The DEP provides this INFORMATION SHEET for general guidance only; it is not intended for use as a legal reference. Maine law governs an appellant’s rights.
