Office of the Secretary
Department of Environment and
Natural Resources

Dear Sir/Madam:

A great day to you!

We are students of **NATIONAL COLLEGE OF SCIENCE AND TECHNOLOGY**, taking up **BS ARCHITECTURE**. We are currently enrolled in, **ARCHITECTURAL DESIGN 10**. We are currently working on data gathering for our thesis entitled "**Promoting Cultural Growth through Biomorphic Sensory Design: A Civic Plaza**".

In line with this, we would like to seek for your help by allowing us to get enough information that we need in our research. This will help us in our design research to guide formally and make the right planning for the said proposal. Rest assured that whatever information we will gather will be kept confidential and will only be used in the completion of our study. The following information are the information/data that we need to gather which help us in our study:

- Rules and Regulations for Man-made Lake

We are hoping for your favorable response. Thank you!

Very truly yours,
