SUBJECT: *Response to eFOI Request #DOH-706624020057*

TIME: 0:48

Republic of the Philippines
Department of Health
OFFICE OF THE SECRETARY

August 25, 2020

MEMORANDUM

FOR : **APRIL RHEA M. MOLINA**
FOI Receiving Officer
Knowledge Management and Information Technology Service

FROM : **MA. THERESA G. VERA, MD, MSc, MHA, CESO III**
Director IV
Health Facility Development Bureau

SUBJECT : **Response to eFOI Request #DOH-706624020057**

This has reference to your Memorandum pertaining to eFOI request #DOH-706624020057U for 1.) Sample, equation or guidelines for bed computation for Heart Center, and 2.) Sample, equation or guidelines for bed computation for Heart Rehabilitation.

In line with this, the Health Facility Development Bureau (HFDB) has reviewed the forwarded document and coordinated with concerned staff to gather relevant data in order to address the concern.

The Department of Health (DOH), through the HFDB, has developed the Philippine Health Facility Development Plan (PHFDP) 2020-2040 which is a macro plan of investments in health infrastructure that will guide national and local government units. Relevant to the computation of hospital beds, there are many factors to be considered such as acute/non-acute care. Currently, the DOH uses bed computation for general hospital beds from Level 1- Level 3 hospitals, not specific to cardiac services.

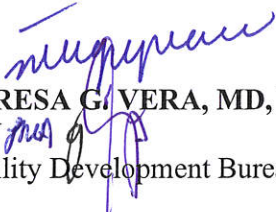

More so, under the PHFDP, select DOH hospitals shall be upgraded to become Specialty Centers which includes the establishment of Cardiovascular Centers. With the aid of the Resource Stratified Framework (RSF), there are standard infrastructure, equipment and human resource requirements for Cardiovascular Centers.

For further information on the above-stated concern, you may coordinate directly to Mr. Learsy Ray G. Afable, Development Management Officer (DMO) III of Health Facility Development Bureau trunk line (02) 651-7800 local 1401/1403 or through email: lrgefable@gmail.com
