Dear Ms. Patricio:

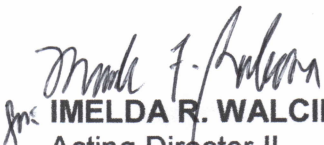

This refers to your email with FOI Tracking No. #NTC-585893711599 requesting for information if you are required to acquire a permit from the National Telecommunications Commission (NTC) for your internet cafe and for the construction of a monopole tower in order to receive internet signal from the provider.

Please be advised that for your internet cafe, you need not secure a Certificate of Registration (COR) or authority from the NTC. With regard to the construction of a tower, the said construction is not regulated by the NTC but the installation, operation and maintenance of radio equipment for which the tower will be used require a permit and license from the NTC.

If you intend to provide internet connections to subscribers, then you need to register with the NTC as Value Added Service Provider.

Thank you.

Very truly yours,

IMELDA R. WALCIEN
