Hundreds of thousands of people enjoy the dunes. The lack of correct data of silica dust particles must be addressed.

Now! More direct proof that off road vehicles are NOT to blame!

Hundreds and thousands of families Enjoy and care very much about the beach and the Sand Dunes! The snowy Plover birds have hundreds of shore line acres to nest on. In six years of coming here (and now live here) I have seen maybe two dead seagulls. No snowy plovers !! In closing,,,, people that don't enjoy living here shouldn't live here. Find a place that makes me happy.

Thousands of us are happy to be

Thousands of us are happy to be here and enjoy nature of the dunes and the revenue that comes with it. Estimated \$243,580,919 a year !
