Don't close the dunes. I live near the Nipomo Mesa and don't have respiratory issues like the people trying to close it say.

Simple fact is these people don't like something and they want to change it.

Like I said, I live near by Monarch and will be moving even closer.

One day I was driving my truck to the beach and I drove through monarch to get to hwy 1 then over to oceano, just because my truck looked lifted and was flying my sand flag I was verbally and hand gesture assaulted.
