I am writing in opposition to the mitigation plan proposed by the **State Parks, California Air Resources Board and the Air Pollution Control District**. It is entirely inadequate and places the health of my family at risk. This proposal must be replaced by one that substantially reduces the pollution level that will **cost human lives** on the Nipomo Mesa. If you think that this plan will silence our opposition; you are dead wrong. We demand that the healthy air standards that are promised to all Californians be enforced. Our opposition will continue to mobilize, and with it a campaign that will inevitably bring more public attention through the media to this health crisis.
