---

To Whom it may concern,

I am writing this email as a voice of many that closing of the OHV areas of pismo beach is wrong and hurting not only the local community's income from tourists around the world but people as a culture growing up rising there and those new and far who come. I myself am not a local as I have been stationed in Southern California since my enlistment in the United States Marine Corps in 2002. I have visited many times, riding and camping there along with going to festivals such as the strawberry festivals, car shows and so far with my fellow brothers and sisters in the armed forces and families. We are all appalled at what you, as a local government is doing to your owning community, hurting it and hurting others not being able to enjoy the outdoors as some have experienced as kids and their kids and grandkids.

We all ask that you stop the closures and look at the real facts, not made up propaganda that is shown and made but a few of the community and yourselves.

Local stores will have to close doors, people will move always. Bigger stores will move where the people area. Shows and festivals won't be as fruitful as they are now. You will create a downward spiral that will affect thousands negatively with your agendas.

Open up the land back to the people.

Sincerely,

SSgt Danny Cummings
