Subject: It is vital that the Air Pollution Control Board take a strong stand
Date: Saturday, April 21, 2018 9:41:46 PM

As a resident of the Nipomo Mesa I demand that you do your job and enforce the existing air quality standards for our area.
Your weakness, inaction, and the failure to do your job by enforcing existing air quality regulations to reduce pollutants caused by the ATV's is putting the health of my family in jeopardy.
Would you hesitate to take action if YOUR FAMILY was endangered by the high level of pollutants?

Take action now!!

Enforce the existing regulations and compel the State Parks to take meaningful steps to reduce air pollution.
