To whom this may concern

My family has been going to the dunes for generations and hope my kids and their kids are able to enjoy the beautiful thing of camping on the beach there is nothing else like it! We spend every holiday and weekend out there we can and so many others! We have invested over 100k so we can enjoy the beautiful dunes every year not counting what we spend locally while we are there. The dunes are and have been created by wind and sand not humans out enjoying them! Please keep this wonderful place open!!
