To whom it may concern, I am writing in regards to the dust issue supposedly coming from the dunes. I feel that is an unfair fight to the people of California and everywhere else that travels to the Oceano Dunes every year to enjoy the beautiful beach and sand and have good clean family fun. The other side keeps complaining of the “dust”, but even after testing from parks and rec it’s been proven there was not any dangerous particles in the dust. It seems these people on the other side just really want their own private beach and are winning because they have money to blow on this ridiculous fight. I ask that you would consider the facts about this “dust” and do not let anyone persuade you or “buy your vote”. Thank you.
