Subject: Closure of ODSVRA
Date: Tuesday, March 20, 2018 5:47:30 PM

I am writing to you from a hospital room just hours after my second child was just born. Why would I be doing this at a time like this? Do I not have my priorities straight? There are far more important things I should be worrying about right now?

The reason why I am doing this is because I am tired of the elected officials, of this grand state I love, closing more and more acreage away from one of our family's most nearest and dearest vacation spots. Despite the majority being opposed to this, and scientific data proving the OHV users are not causing the health complications of adjacent communities, you still continue on pressing the closures.

You are creating an environmental and safety hazard by concentrating users to such small areas.

I am writing this, while in this hospital room, because my new born child will probably never have the pleasure of introducing such a wonderful place their children, and this both upsets and angers me.

NO MORE CLOSURES AND NO MORE RESTRICTIONS!!!!
