---

Dear Sirs,

I am writing about the possible closure of the Oceano SRVA. I have been using this area for recreation since 1972 and have seen a lot of changes in this time. This area is about half the size it was when I first started going to the Oceano area. This area is unique to the state of California and should remain open.

In the air quality report that I have read does not back up the assumption that vehicle use is responsible for the air quality in this area. I hope you would reconsider any thought of closure of the Oceano Dunes State SRVA.

Thank You,  
Jon Aichele
