Subject: Proposed Draft Stipulated Abatement Order and Petition Number 17-01
Date: Tuesday, March 20, 2018 5:54:54 PM

The OHV closure and fencing off the Oceano Dunes is unjustified and completely unwarranted! We are dealing with the effects mother nature, and for some reason a select few think they control nature. There has been evidence of false claims by those who support the closure. And for county officials to agree with those false studies, only puts them at fault when the problems are not resolved. It only takes a little research to prove that the very same complaints we're facing is now, are the exact same problems that were happening BEFORE vehicles were allowed on the dunes! Eucalyptus trees were planted on the Mesa long ago to counter the effects of the sand blowing. We can't stop the wind and we can't stop the waves. IT CANNOT BE STOPPED! But it can be understood, and that's where the communication is lacking to those who want it shut down.

I understand the need to do something about it. But this is the wrong approach. This affects much more than just the people who complain on the Mesa. This will hurt generations of people, families, businesses, communities, OUR County. We depend on things like this that make SLO County great! We have an obligation to show that we can work together too both preserve AND enjoy the amazing land we live on. Putting people in a smaller confined space is only going to increase risk of bodily injury. Please DO NOT close more of the Oceano Dunes, OPEN MORE!

I will be at the meeting tomorrow morning.
Thank you for you time.

Justin Archer
