Subject: Clean Air on the Central Coast-URGENT!!!
Date: Wednesday, April 25, 2018 6:15:46 AM

<http://www.sierraclub.org/santa-lucia/blog/2018/04/it-s-not-just-dust> Please improve the air quality on the Central Coast. We deserve clean air now. We demand the Hearing Board act now. Close the emissive 200 acres now. We require the area to be fully vegetated this year. There needs to be accountability and fines for non-performance. Our President expects all United States infrastructure to be improved this year. Do your duty now! Sincerely, Concerned Residents of the Central Coast and Nipomo Mesa Dunes.
