Subject: Regarding the proposed State Parks agreement and APCD proposed agreement regarding the order of abatement
Date: Sunday, March 18, 2018 3:39:16 PM

The proposed agreement is absolutely absurd. This does not protect the health of the

growing population of the Nipomo Mesa residents.

There are young families moving into the area and their health will be permanently damaged

if this serious health nuisance is not alleviated. Not 30% in five years! There is no guarantee

that this will even be effective.

The Nipomo Mesa is a strong economic force, protect this group of residents who live here

full time from having their health destroyed.

Regards,

Linda Reynolds

Nipomo
