Dear Board,

Particulate matter from the dunes remains a critical public health issue. Many days this year I have been "trapped" in my home as the air was thick with the blowing sand dust.

So, I urge you....please, please, pleaseany change that reduces the compliance target from a 50 percent reduction to a 40.7 percent reduction should be rejected.

In fact, an even larger percentage should be adopted.....as in no ATV riding in the La Grande tract at least.

Health matters above recreational thrills.... as I see it.

Thank you ,

Liz Murray
