Subject: The new stipulated agreement between State Parks, APCD and CARB
Date: Wednesday, April 25, 2018 11:13:28 AM
Importance: High

The stipulated agreement is not the improved plan that was ordered by the hearing board. Where are the goals, acreage required, time frames and penalties. This is yet another attempt to stall and confuse the issue. Where are the improvements in the plan to protect our health? This plan must not be accepted. We must have earlier and increased mitigation efforts.

1. *The Hearing Board should direct the immediate closing of the most emissive 200 acres now.*
2. *The Hearing Board should order that the 200 acres be fully vegetated by September 1, 2018.*
3. *The Hearing Board should order the restoration of a fully vegetated berm area by September 1, 2018.*
4. *The Hearing Board should measure the results and if 200 acres doesn't reduce the pollution level by 50%, then order the closing of another 100 acres by April 1, 2019.*
5. *The Hearing Board should stipulate fines for non-performance.*

Thank you for your consideration,

Mary Louise Labadie, CAPS, CGP, CMP, CSP, MCSP
