Dear Arlene Versaw and Rachelle Toti,

Unfortunately, my wife and I will be out of town on the 14th, but, would like to say that we strongly agree with studies showing that the level of particulate matter is very unhealthy for people that live in the area of dunes, including us and many friends in our Trilogy community. We are opposed to any change that reduces the compliance target from a 50 percent reduction to a 40.7 percent reduction and should be rejected out of hand. Any delay will only give opponents more time to find ways to have those in power to side with them.

Please add our comments to be presented to those in control to decide the outcome in our favor.

Regards,
Martin Maglione
Suzy Meyer
