RE: San Luis Obispo County Air Pollution Control District Public Comment

Hello,

I understand there is a public comment meeting on Wednesday, March 21 regarding the air quality complaint against the Oceano Dunes SVRA. As I am unable to attend in person, I will share my input below.

As taxpayers, California residents, and citizens who enjoy the recreational opportunities of the SVRA, the public at large is entitled to answers to the following questions:

- What independent research has confirmed the validity of silica coming from the SVRA?
- What impact does the marine biological material coming from the ocean have on all the air monitoring data?
- What percentage of dust is coming from the SVRA?
- Were the SVRA to be closed, what is the impact in terms of jobs lost to SLO county?
- What new tax revenue is being proposed to offset the community's economic losses resulting from an SVRA closure?

Thank you for your time and I look forward to your response.

Sincerely,

Matthew Bradley

-
