Hello,

I am a homeowner in Oceano about a mile off the beach on Belridge. I have owned this home since 2005. I also frequent the dunes on all major holidays with my family. My son was 1.5 years old when we started camping on the beach and is now 24 years old. Our family is a tight nit family and I think a lot of that is due to the times we have spent over the past 22 years camping with groups of people in the sand. There are so many families that will lose that I am afraid if the dunes are shut down. SO much has already been taken away and they just continue to fight and fight to take it all. Seriously unfair. I not only want to continue to have access for our great times on the sand but also because I have a huge concern for my property values if this city becomes a ghost town after it is shut down. Please help us keep our dunes open.

Thank you,

And, if you know of anyone thinking of purchasing a home or refinancing a home, we always appreciate referrals!
