Hello

I just wanted to send an email letting you know what Oceano dunes or as I call it Pismo. Pismo is a place for us to escape to and just enjoy life at it finest. We visit Pismo through every year and spend anywhere from 3 days to 5 days at a time enjoying the Dunes, The water And just the feeling you get when your on the beach with everyone else that share that same felling with you. I visit with my wife and 2 amazing boys Nathan 9 years old and Tyler 1 years old. Nathan has grown up at Pismo year after year as I did. He will be devastated if one day we can not visit our get away. We do not only spend time on the beach every weekend there,we go in to town on Saturday and Sunday patronizing local business and enjoying the company of locals. I think that one of our largest problems in California with younger kids and the trouble they get in to has to do with activities they have or lack of available to them. California keeps eliminating more and more activities for younger children and teens to enjoy. I sincerely hope you guys take a good look at all side of this situation. We the Dune riders have been coming and enjoying this area longer then most have lived there. Please allow us to continue to enjoy this awesome place we call home for many visits every year

Thank you

Randy Miller
