Subject: Oceano SVRA

To all Involved

I am speaking out against the closure Oceano SVRA. As a born and Raised Calif. Native & SLO County resident, I have all way loved the fact that we have are Beaches for all types of Recreation. As a Avid surfer / off roader I have be going to the Oceano Dunes for over 40 years I do not want to see my right to the Oceano SVRA Striped a way.

WE need to know what percentage of dust is coming from the SVRA ?????????!!!!!!

WE want to know if the Marine biological material coming from the Ocean has any inpact on the air monitoring Data ?????????!!!!!!

Has any one investigated the validity of the silica coming from SVRA and if so what is the percentage is it ?????????!!!!!!

I ask PLEASE lets not Rush to a DECISION get all the facts first!!!!!!!!!!!!!!!!!!!!!!

Thank You

Richard E Birch
