"STOP CLOSING OHV AREA. OPEN MORE OHV AREA"

The impact to the community and surround areas will be seriously impacted by the lack visitors to the OHV. To think that the dust is only caused by participants of the off-highway park is completely absurd. What actually should be brought up is it Geographical changing to the coastline caused by people destroying natural landscaping and natural wind blocking to build homes. Which is permanently damaging the coastline. The natural Sandune's caused by the wind has and will be here before anyone's life time you moved into the area you deal with it.

We will not stop fighting
