Subject: Closing of Oceano Dunes Areas
Date: Friday, March 16, 2018 1:30:24 PM

March 16, 2018

To whom it may concern:

With a proposed goal of reducing air pollution, we understand that a settlement has been agreed to between San Luis Obispo County Air Pollution Control District and State Parks. Furthermore, on Wednesday, March 21, the Air Pollution Control District Hearing Board will meet to discuss this agreement before a final decision is made to reject or accept the proposal. I would like to participate in that via this letter, asking that further investigation be done before such a major step is taken. Specifically, to investigate the validity of silica coming from State Vehicular Recreational Areas (SVRA), what impact marine biological material coming from the ocean has on all the air monitoring data and what percentage of dust is coming from the SVRA?

My family has been going to Pismo for 50+ years and have responsibly and lovingly enjoyed the Oceano recreational area. We do not want to see any area of that wonderful place closed and hope you will add this letter to the arguments against accepting this proposal. Thank you for your consideration.
