Subject: State Parks Agreement Delay
Date: Sunday, April 22, 2018 8:15:08 AM

I have been made aware of the latest delay by State Parks in posting their new Stipulated Agreement. As a resident of the Mesa I am frustrated by the continued delays by State Parks for the last several years. The air we breathe is not healthy. Public health is more important than recreation. Thousands of people are affected daily. We have been waiting eight years for mitigation.

We need relief now.
