Subject: Air pollution-URGENT
Date: Thursday, April 26, 2018 8:28:36 AM

- We deserve clean air now. must reduce to at least 50% NOW! My life is on the line!
- The proposed abatement order is essentially the same as the previous one which is woefully deficient and unsatisfactory. Why has this happened. Do you not care?
- The Hearing Board needs to act to provide immediate relief to the residents of the Mesa. A significant reduction should be required up front, not employed piecemeal over five years. We have been waiting for eight years and enough is enough. (This is a critical point.) Stand your ground and demand that this occurs. Our lives are on the line!
- The Hearing Board should direct the immediate closing of the most emissive 200 acres now. Do you have the strength to do this? If not, why not?
- The Hearing Board should order that the 200 acres be fully vegetated by September 1, 2018. This is very important. Are you good enough to do this and make it happen?
- The Hearing Board should order the restoration of a fully vegetated berm area by September 1, 2018. Absolutely! MUST be done NOW!!
- The Hearing Board should measure the results and if 200 acres doesn't reduce the pollution level by 50%, then order the closing of another 100 acres by April 1, 2019. Are you going to do this in a nonpartisan way? Should!!
- The Hearing Board should stipulate fines for non-performance. Let me know if his will be done. If not it will just continue to unabated.
