GM

I am not good at writing letters but I thought it was worth a shot.....

So my family and I go to the dunes on a regular base by family I mean husband, kids ,dad, mom, cousins and family from out of state the look forward to going to the beach to camp. We have many memories with family and friends

We camp by the RV and tent we have thought my son and daughter life living skills on the beach how to build fire, cook, clean, drive, clean up and help other people they don't know . We have given them many memories of being on the beach with family and friends

From great sunny weather to the bad wind. We have met many new people that have become friends.

My family favorite place to go riding is the beach and if it is shut down we will not do that anymore nor will we continue to make memories all we will have is what we have from day trips to weekends and holidays.

We have met many state employees that we look forward to seeing when we pull up

Please know that us rides/ camp families make lots of revenue not only for the state employees that may lose their jobs due to lack of money but also the town as we go to town shop and eat with our family and friends

Please do not take away our memories and furfure memories

Thank you for your time
