Subject: oceano dunes
Date: Thursday, April 26, 2018 4:55:36 PM

Hi I am writing in regards to the proposed closure of the ocean dunes. The dunes have been here far longer than any housing developments, if you do not want any affects of living near a sand dune then do not live near one. I live in kern county, CA where the air quality is constantly ranked the worst in the nation. I am aware of this fact and I choose to live here, I do not blame others and restrict others rights to public property because of it. People need to have personal responsibility, if you purchased a home near an off road park then you will have to live with the consequences of that decision. If someones health is failing due to the conditions of where they live it would behoove that person to move to an area better suited to their health needs. Shutting down state parks and restricting other peoples freedom to use those parks is absolutely unacceptable. Everyone on all these committees and boards needs to take a stand and make people responsible for their own choices and stop punishing users of the state parks. In closing I will reiterate it is the residents own choice to live near blowing sand dunes. It is not the fault off off-roaders or state park officials that they have sand blowing in there neighborhood. I sincerely hope each and everyone of you make the right choice and make the people who made the decision to live there take personal responsibility.
