To: APCD Hearing Board

WE DESERVE CLEAN AIR NOW !!!

YOU have the RESPONSIBILITY to protect the health of all citizens of the county, it is time to do your job.

Recreation is important, but NOT at the risk of others people's health.

The proposed abatement order is essentially the same as the previous one which is woefully deficient and unsatisfactory.

You MUST act to provide immediate relief to the residents of the Mesa. A significant reduction MUST be required up front, not employed piecemeal over five years. We have been waiting for eight years with no meaningful efforts made to abide by the mandate.

The most emissive 200 acres must be closed NOW and order that the 200 acres be fully vegetated and require the restoration of a fully vegetated berm by [September 1, 2018](#).

You must require measurements of the results, and if 200 acres doesn't reduce the pollution level by 50%, then order the closing of another 100 acres by [April 1, 2019](#).

There must be stipulated fines for non-performance.
