Subject: Subject: RE: Proposed Draft Stipulated Abatement Order and Petition Number 17-01 Oceano Dunes
Date: Tuesday, March 20, 2018 6:39:55 PM

To whom it may concern,

We just want to express our heartfelt concern and frustration over recent acreage being lost to ride out in the Oceano Dunes. The attorney general is going to be up in arms when he sees the safety issues that is now present. Not to mention, no decisions were going to be made until after voting. There are lawsuits etc and also it has been proven scientifically that no silica is in the sand that flies to the dune homes to cause illness. It is coming off the water.

Trees have been cut to make way for all these homes and they were most likely a buffer to some of that. Why are there a handful of people from other parts of

the state able to come up to an new area and try to dictate what has been going on for recreation for decades?

There is going to be a huge loss for families and for state parks revenue wise if this continues and is not reversed. We are so saddened and are now going to have thousands in off road equipment that we can no longer use in our hometown.

William and Karen Schlecht
