Frequently Asked Questions:

Where did the idea come from?

At a superintendents meeting with 5 of the 6 school districts represented there were ideas of using this facility for hosting job fairs, dairy days, a small scale sportsman show, athletic activities as well as potentially being a disaster area for the Red Cross. There are many different ways this facility would benefit the residents of this county.

Location?

There is no location yet. The first phase of this project is a preliminary study that will assess our county and let us know if this project is feasible and where the best location would be. The only difference would be land being donated.

Who could use this facility?

Anyone of any age would be able to use the facility and they could actually use it at the same time. For example, this facility could be used ***by three generations at the same time.*** A Grandmother could be participating in a social card club while her daughter gets to work out in the fitness center and her grandchild goes to soccer practice.

What is the donation used for?

A donation from your organization will go towards phase two which is to apply for our 501(c)(3) status and get renderings of the facility.
