Little Hero Adventures

"SUPER IN SPACE"

TEASER

INT. BEDROOM - DAY

HAYDEN, 4, packs a small suitcase on his bed in a typical, blue, boy room with 2 small, neatly made beds, a book shelf, toy box, and a window.

His dusty brown hair falls into his blue eyes, then blows back as he runs around his bedroom in a blur.

WYATT, 3, with a bowl cut hair and big brown eyes, flies in and lands beside his bed. Items poke through the suitcase. He swings it back and forth and holds a toy rocket in his hand.

WYATT

Are you ready for our super space  
vacation to Saturn?

Hayden grinds to a halt and smiles at his brother.

HAYDEN

You bet! I can't wait to ride  
Saturn's rings!

CAPTAIN CHAMPION, 28, calls from outside.

CAPTAIN CHAMPION

Boys! It's time to go!

Hayden dashes out the door. Wyatt stays behind.

WYATT

(giggles)  
Tee-he-he. Hayden! You forgot  
something!

Hayden rushes back in the room, his suitcase on the bed.

HAYDEN

Oh, right! Thanks, little brother!

Hayden runs to his bed, latches his suitcase closed, and grabs his toy train that sits on the night stand by the bed. He bolts out of the room. Wyatt flies behind him.

INT. ROCKET - DAY

Captain Champion, slicked back brown hair, sits in one of the two large chairs at the front. He taps at the blinking instrument panels. The family wears matching silver suits.

MRS. CHAMPION, 26, buckles a wiggling baby, CONNOR, into the car seat. He squeals, coos, and he reaches for her long hair.

MRS. CHAMPION

Take your seat and buckle up for  
take off.

The boys cheer, take their seats, and fasten their seat belts. Mrs. Champion presses a button and the doors seals shut with a WHOOSH.

She takes her seat next to Captain Champion. The rocket roars to life.

FAMILY

3, 2, 1. It's time for Little Hero  
Adventures!

END OF TEASER

CUT TO: OPENING  
CREDITS AND SONG

INT. ROCKET - DAY

The family rocket zooms through space. Captain Champion is at the wheel. Mrs. Champion looks at the screen and navigates.

HAYDEN AND WYATT

(in unison)

Are we there yet? Are we there yet?

Mrs. Champion spins her seat around and glances at the boys with a small smile.

MRS. CHAMPION

No. And asking every three minutes won't get us there any faster. You have to be patient.

The boys laugh and toss a ball back and forth. Connor sucks his thumb and sleeps.

CAPTAIN CHAMPION

Looks like there's something up ahead of us.

HAYDEN AND WYATT

(in unison)

It's Dr. Rocket!

DR. ROCKET, a strange alien looking creature, appears in view and laughs.

DR. ROCKET

No one gets past me today! No superheroes allowed!

HAYDEN

Oh no!

WYATT

What are we going to do?

A comet passes by.

CAPTAIN CHAMPION

Hey, Dr. Rocket! Look! It's a comet!

Dr. Rocket turns to the comet. The family rocket zips past.

WYATT  
Yay! We made it past!

DR. ROCKET  
(angry)  
NOOOOO!

Dr. Rocket looks around and picks up an asteroid.

DR. ROCKET (CONT'D)  
Not so fast! I'll get you,  
Champions!

Dr. Rocket throws the asteroid at the rocket.

HAYDEN  
Oh no! He's throwing asteroids at  
us! We have to try to avoid them!

Captain Champion grunts and attempts to maneuver around.

WYATT  
Let's count the asteroids.

As the boys count, the numbers appear on the screen.

HAYDEN AND WYATT  
One, two, three, four!

The fifth slams into the rocket, which screeches to a halt.

DR. ROCKET  
Mu-ha-ha-ha!

Dr. Rocket flies off and disappears.

MRS. CHAMPION  
Looks like we've been hit!

CAPTAIN CHAMPION  
I'll go take a look.

EXT. SPACE

Captain Champion floats outside of the rocket in a space suit. He assesses the rocket. There are several broken parts. He gathers them and returns to the rocket.

INT. ROCKET

CAPTAIN CHAMPION

Well, it looks like we have a few damaged parts. It is nothing we can't fix though!

MRS. CHAMPION

I'll get the spare parts kit.

She walks over to a compartment labeled EMERGENCY SPARE PARTS. She pulls out a metal box and opens it.

MRS. CHAMPION (CONT'D)

(frowns)

These parts are unusable! What will be do now?

HAYDEN

Super drats! The crash broke the spare parts! Our vacation is ruined!

CAPTAIN CHAMPION

Not so fast! There is a store on Mars where we can get the parts. I'll take the shuttle pod and head to the space hub there.

WYATT

Once we have the parts we need, can you fix it, Dad?

CAPTAIN CHAMPION

You bet, champ!

INT. SHUTTLE POD

Hayden, Wyatt, and Captain Champion load up into the small, green shuttle pod and take their seats.

Captain Champion attempts to start the pod. It doesn't start. A battery shaped indicator flashes red on the dashboard and BEEPS.

CAPTAIN CHAMPION

Looks like the battery is dead.

Hayden presses a button on the dashboard and Mrs. Champion's face appears.

HAYDEN

Mom, we have a problem. The battery is dead on the shuttle pod and we need a booster charge.

MRS. CHAMPION

Not a problem! Just connect and I'll give you a boost.

Captain Champion presses another button. A cable appears outside of the pod and attaches to an outlet on the shuttle.

WYATT

It is going to take ten units for the shuttle pod to be charged.

The battery indicator fills and BEEPS as the boys count.

HAYDEN AND WYATT

One, two, three, four, five, six, seven, eight, nine, ten!

Captain Champion turns the engine on. The engine REVS.

CAPTAIN CHAMPION

All fired up and ready to go!

HAYDEN

Great job! We counted to ten and charged the shuttle pod.

CAPTAIN CHAMPION

To Mars!

EXT. SPACE

Dr. Rocket watches from behind a large asteroid. He bangs his hands against the rock.

DR. ROCKET

They won't get their parts so easily if I have anything to say about it!

He cackles and flies off after Hayden, Wyatt, and Captain Champion using silver rocket boots.

EXT. MARS - DAY

The shuttle pod lands on the rocky, red planet Mars. There is no one else around.

Hayden, Wyatt, and Captain Champion stop.

INT. SHUTTLE POD

HAYDEN

Mars! The forth planet from the sun  
and one of Earth's closest  
neighbors. Earth is the third  
planet from the sun.

CAPTAIN CHAMPION

Excellent, Hayden! Wyatt, do you  
know what the other planet closest  
to Earth is?

WYATT

Venus! It's the second planet from  
the sun.

CAPTAIN CHAMPION

Correct!

HAYDEN

Now we need to find the space port  
on the map.

The map is shown on the dashboard and Hayden points to the  
space port on the map.

WYATT

We need to go West and we will come  
to a crater. There will be a sign  
pointing us in the right direction.

CAPTAIN CHAMPION

I've got my compass.

They look at the compass and go West.

EXT. MARS

Dr. Rocket watches from behind a large rock. He laughs.

DR. ROCKET

Ha ha ha! Now it's time to throw  
them off course.

He flies ahead and lands next to a sign with an arrow  
pointing towards the space port. He turns it in the opposite  
direction, laughs, and hides.

INT. SHUTTLE POD

The Champion's shuttle pod zips up to the sign and stops.

CAPTAIN CHAMPION

Here is the sign we are looking for. We should compare it to the map to make sure.

HAYDEN

It looks like the one on the map, but something is different.

WYATT

You're right, Hayden. The sign should be pointing towards the large mountain to the right like it is on the map, but it isn't.

CAPTAIN CHAMPION

I have a feeling Dr. Rocket is behind this.

HAYDEN

We should fix the sign for people who come after us.

EXT. MARS

Captain Champion leaves the shuttle pod in his space suit and turns the sign in the correct direction. He returns to the pod. They resume their trip in the right directions.

Dr. Rocket stomps his foot.

DR. ROCKET

Foiled again! Gah! I still have a trick or two up my sleeve. Ha-ha!

He flies off to the space hub entrance. A silver guard shack and gate block the entrance. He sneaks up to the gate and pulls parts off box. Sparks fly.

DR. ROCKET (CONT'D)

Ha-ha! That should stop them.

He takes off.

Hayden, Wyatt, and Captain Champion arrive at the gate. A GUARD in a white uniform stands outside of the shack and greets the family with a wave.

GUARD

Hello and welcome to the Mars Space  
Hub! Can I see your Hero ID?

INT. SHUTTLE POD

Captain Champion smiles and slides his ID into an opening. It  
zips through and exits outside of the pod.

EXT. MARS

GUARD

Thank you! You are good to go.

He presses a red button. The gate arm twitches and sparks but  
doesn't lift.

GUARD (CONT'D)

It appears that our gate is broken.

Hayden, Wyatt, and Captain Champion exit the shuttle pod and  
walk with the guard to the electrical box. Pieces are missing  
from the box.

GUARD (CONT'D)

Who would do this?

CAPTAIN CHAMPION

(frowns)

I have an idea.

HAYDEN AND WYATT

(in unison)

Dr. Rocket!

GUARD

I found some parts on the ground.  
Will you boys help me figure out  
what part goes where?

HAYDEN AND WYATT

Sure!

The boys sort through the parts.

WYATT

This piece is in the shape of a  
square, so where does it go?

HAYDEN

It goes here in the spot shaped  
like a square.

WYATT

This next piece is shaped like a star, so it goes in the spot shaped like a star.

They match each piece to the shape on the electrical box. Captain Champion puts the pieces in the correct spots and the gate arm lifts.

HAYDEN

We did it!

WYATT

We fixed the gate!

CAPTAIN CHAMPION

Back to the shuttle pod!

GUARD

Thanks for the help! I hope you find what you are looking for!

They hop back into the shuttle pod and take off. The guard waves goodbye.

INT. SHUTTLE POD

CAPTAIN CHAMPION

Can you boys check the map for me and tell me what store number we are looking for?

Hayden pulls up the map and points to the store.

HAYDEN

We are looking for store number 12.

WYATT

We just passed store number 6 and before that, we passed number 5. 12 comes after 6 so we are headed in the right direction.

HAYDEN

Right, Wyatt! Look! There is store number 7!

WYATT

8...9...10...11...12! Right here, Dad!

The shuttle pod stops and parks outside of a metal building with the number 12 painted in large, white numbers on the side. The boys exit in their special space suits once more.

They enter the store.

Dr. Rocket watches and sneaks into the store and hides behind a shelf.

INT. MARS - STORE

The Champions walk into the store. A bell JINGLES. The store clerk, BOB, a green alien creature with grey hair and glasses, waves.

BOB

Well, hello there! I'm Bob.

CAPTAIN CHAMPION

Hello, Bob! We are looking for parts for our rocket.

BOB

You've come to the right place.

CAPTAIN CHAMPION

Here's the list of parts we need.

BOB

Excellent. Our parts consist of a letter and a number. That helps us locate them on the shelves.

HAYDEN

The first part we need is A-5.

WYATT

There are three rows: A, B, and C. We need to go down the row with the letter A on it.

The boys walk to the shelf with an A on the front. There are parts scattered on the floor.

BOB

Oh no! Someone has mixed up the parts and dumped them on the floor!

WYATT

We can help you, Mr. Bob. Let's organize the parts!

BOB  
That would be great.

Bob rolls out three bins with the letters A, B, and C.  
Hayden holds up a part.

HAYDEN  
This part has a B on it. Which bin  
does it go in?

They pause. The bin with a B on it lights up.

CAPTAIN CHAMPION  
Correct!

Wyatt picks up a part with a C on it and holds it up.

WYATT  
What letter does this part have?

They pause again and the C bin lights up.

HAYDEN  
Excellent! That part has a C on it,  
so it goes in the C bin!

Captain Champion picks up the last part on the floor.

CAPTAIN CHAMPION  
What letter is this?

They pause and the B bin lights up.

HAYDEN  
Fantastic! That part has a B on it,  
so it goes in the B bin!

WYATT  
Great job! We picked up all the  
parts and organized them!

BOB  
Thanks for all of your help! Here  
are the parts you need. No charge!

CAPTAIN CHAMPION  
Why, thank you!

BOB  
No problem. I hope you get your  
rocket fixed!

The boys and Captain Champion wave and exit.

EXT. MARS

Dr. Rocket stomps his foot and screams.

DR. ROCKET  
No! No! No! I won't be beat. I'll  
still stop you!

EXT. ROCKET - SPACE

Captain Champion attaches the last part to the shuttle.

CAPTAIN CHAMPION  
There! All done!

The rocket roars to life.

INT. ROCKET

Hayden, Wyatt, Connor, and Mrs. Champion cheer. Captain  
Champion enters.

CAPTAIN CHAMPION  
Our vacation is back on schedule!  
Let's buckle up and get going.

Dr. Rocket appears outside of the windshield.

DR. ROCKET  
Not so fast!

HAYDEN AND WYATT  
Dr. Rocket!

DR. ROCKET  
You superheroes aren't going to  
ruin my vacation!

EXT. SPACE

Dr. Rocket removes a green vial of liquid from his pocket. He  
pours it out in front of him. A cloud of green smoke obscures  
the scene.

INT. ROCKET

CAPTAIN CHAMPION  
I can't see anything!

MRS. CHAMPION

We need to find a way to clear the smoke. Anyone have any ideas?

HAYDEN

We need to find a tool that will blow the smoke away.

Hayden and Wyatt walk to a cabinet. They open it. A fan, a flashlight, a ball, and an apple sit on the shelves.

WYATT

What do we have that will blow the smoke away?

HAYDEN

We can use this fan!

EXT. SPACE

Hayden and Wyatt float in their space suits in the middle of the green smoke. They flick the switch and the fan HUMS on. The smoke begins to clear.

WYATT

It's working!

HAYDEN

Keep going!

Wyatt holds the fan out and the remaining smoke blows away.

WYATT

Excellent! We cleared the smoke!

DR. ROCKET

Foiled again!

HAYDEN

Dr. Rocket, why are you trying to ruin our vacation?

DR. ROCKET

(sadly)

Superheroes never let me join in on the fun. I just wanted to have Saturn all to myself.

HAYDEN

You can join us! We can ride the rings together!

DR. ROCKET

Really? No one ever wants to play  
with me.

WYATT

Sure! It will be fun. Come on!

They all enter the rocket and the rocket takes off.

EXT. SATURN - SPACE

Hayden, Wyatt, and Dr. Rocket sit on one of Saturn's ring and  
zip around the planet. They giggle and cheer.

INT. HOTEL, SATURN

Captain Champion, Mrs. Champion, and Connor splash in a pool  
inside of a clear dome. Hayden, Wyatt, and Dr. Rocket whiz by  
one of the windows.

CAPTAIN CHAMPION

Yet another excellent Champion  
vacation!

MRS. CHAMPION

And it looks like we have a new  
family friend.

Connor squeals and splashes. Captain Champion and Mrs.  
Champion laugh.

CAPTAIN CHAMPION

And everyone is happy!

FADE OUT.
