

REPAGEN® EXCLUSIVE

Facial expressions, free radicals, dehydration, genetic predisposition and a number of other factors cause the skin to lose its fresh look and elasticity over time. Most skin care products only counteract individual signs of aging. With the new REPAGEN® EXCLUSIVE, the beauty pioneer Gerhard Klapp now offers a global innovation with an all-round anti-aging effect. The secret of REPAGEN® EXCLUSIVE lies in the pioneering high-tech ingredients. They release their effect in all three layers of the skin - the dermis, epidermis and the subcutaneous tissue - and make the exclusive system skin care line the perfect solution for the highest demands.

MAIN ACTIVE INGREDIENTS OF THE SERIES

Matrixyl™ Synthe'6™

The lipopeptide stimulates the synthesis of 6 major components of the skin matrix: Collagen I, III, and fibronectin in the dermis, collagen IV and laminin-5 in the dermo-epidermal junction (DEJ) and hyaluronic acid in the dermis, the epidermis and the DEJ.

Platinum Matri-XEM:

Platinum Matri-XEM is a platinum-bound peptide. The peptide with anti-aging effect stimulates the collagen I and III synthesis. The platinum compound improves the anti-wrinkle effect ten to hundred times more than free peptides. Rich in vitamin C, essential fatty acids such as linoleic acid, palmitoleic acid and beta-carotene. It soothes and protects the skin.

CLEANSING CREAM MOUSSE

4305

Skin type:	pH-Value:
suitable for all skin types	5.0 – 5.5

Main

active ingredients: Water lily extract

Properties: combines cleansing and tonic in one product, gently removes make-up and dirt particles, leaves the skin with a soft, smooth touch and balanced, has a soothing and antioxidant effect

Application: Apply mornings and evenings. Moisten the face, neck and décolleté with water. Apply some Cleansing Cream Mousse onto the palm and foam with a bit of water. Apply, gently foam and rinse.

Unique Selling Points: combines cleansing and tonic, gentle cleansing balances the skin, flatters the skin with an exquisite fragrance, optimal preparation for the skin care to be applied, free from mineral oils, parabens, PEGs

RICH EYE CARE

4307

Skin type:	pH-Value:
suitable for all skin types	6.5 – 7.0

Main

active ingredients: Matrixyl™ Synthe'6™, Platinum Matri-XEM

Properties: multi-active anti-aging effect, stimulation of the collagen and laminin-5 synthesis, stimulates the skin's own hyaluronic acid synthesis, increased skin elasticity and firmness, efficiently reduces wrinkle formation, plumps up fine lines and wrinkles from within, additional visual compensation of wrinkles through pigments

Application: Apply mornings and evenings to the cleansed area around the eyes and pat in gently.

Unique Selling Points: for a visibly smooth, firm eye area, reduces wrinkles and crow's feet, intensive moisture supply, flatters the skin with an exquisite fragrance, free of mineral oils, parabens, PEGs

GLOBAL ANTI-AGE CREAM

4306

Skin type:	pH-Value:
mature skin	5.5 – 6.5

Main

active ingredients: Matrixyl™ Synthe'6™, Platinum Matri-XEM, argireline, retinol, revidrat

Properties: multi-active effect in the epidermis, dermis, the subcutis as well as the dermo-epidermal junction zone, stimulation of the collagen and laminin-5 synthesis, increased skin elasticity and firmness, reduction of facial expression wrinkles by relaxing facial muscles, stimulates the skin's own hyaluronic acid, plumps up fine lines and wrinkles from within, efficiently counteracts wrinkle formation, protection against free radicals, keratinization, reduction of wrinkles and volume build-up

Application: Apply mornings and evenings to the cleansed face, neck and décolleté and gently massage into the skin.

Unique Selling Points: Reduction of fine lines and wrinkles, for a youthful looking and radiant skin, flatters the skin with an exquisite fragrance, free of mineral oils, parabens, PEGs

SERUM

4308

Skin type:	pH-Value:	Emulsion type:
For all skin types	6.5 – 7.0	Hydrogel

Main

active ingredients: Tens'Up™, Platinum Matrix-EM, ruby beads, MATRIXYL™ synthe'6™

Properties: Platinum Matri-XEM, Matrixyl™ synthe'6™ and Tens'Up™ stimulate the synthesis of several collagen types in the dermis and the epidermis and leave the skin with a visibly smoother appearance. Fine ruby beads create that special luxurious feeling on the skin.

Application: Apply mornings and/or evenings to the cleansed face and massage gently into the skin. In addition, apply the usual day/night skin care product.

Unique Selling Points: A luxurious and highly concentrated treatment with high-tech active ingredients for optimal firming results. Also ideal for use as a make-up foundation. No mineral oil, no silicone oil, no parabens, no PEGs

PEEL MASK

Skin type:
all skin types

Main active ingredients: AHA fruit acid, malic acid, tartaric acid, lactic acid, gluconic acid, glycolic acid, ascorbic acid, salicylic acid

Properties: A proven combination of fruit, malic and lactic acids supports the skin renewal process. Salicylic acid contained in willow extract gently removes the top layer of the skin, the skin texture is noticeably refined and refreshed. Ginger extract and papaya extract with an enzymatic effect improve the blood circulation and thus stimulate the cell renewal and skin regeneration.

Directions: Apply the PEEL MASK quickly to the face, neck and décolleté. Avoid the lips and eye area (cover the eyes with cotton pads if required). Leave to work for 15 minutes. Do NOT rinse!

FACIAL MASK

Skin type:	pH-Value:
all skin types	6.0 - 8.0

Main active ingredients: Algae extracts (Algin)

Properties: Intensive hydration, stimulation of the collagen synthesis, leaves the complexion looking radiant, wrinkle smoothing, increases the intensity of the active ingredients through the occlusion effect.

Directions: Mix the FACIAL MASK with water. Mixing ratio of 1:2 (1 jar MASK and 2 jars of cold water). Apply one mask onto the face and another one onto the neck and décolleté. Apply the FACIAL MASK on top of the PEEL MASK. Allow to absorb for another 15 minutes. Then remove carefully from the skin and cleanse the skin thoroughly with cool, damp compresses.

CONCENTRATE

Skin type:	pH-Value:
all skin types	6.0 - 7.0

Main active ingredients: Repagen complex, sorbitol, hydrolite, soybean oil tocopherol hexapeptide-8

Properties: Another anti-aging ingredient on a hydroxyproline basis is transported as a component of liposomes into the skin where it stimulates the formation of collagen III, i.e. skin aging is specifically targeted.

Directions: Work the CONCENTRATE into the skin by applying a manupressure massage or lymph drainage.

FACIAL PATCH

Skin type:	pH-Value:
all skin types	5.0

Main active ingredients: Vitamins A, C, E, orange extract, panthenol

Properties: Reduces small expression lines and wrinkles for a more even complexion. Soft gel surface with high-quality vitamin A, C and E. Efficient application of the ingredients onto the skin thanks to the innovating soft gel.

Directions: Place the FACIAL PATCH on the face and leave to work for 20 - 30 minutes.

CREAM MASK

Skin type:	pH-Value:
all skin types	5.0

Main active ingredients: Repagen complex, sorbitol, hydrolite, soybean oil, tocopherol

Properties: Highly effective mixtures of high-tech peptides can reduce the wrinkle depth and thus offer a younger and fresher look. In parallel, the skin elasticity and firmness of the skin is improved. Micro-encapsulated vitamin A also ensures an excellent long-term anti-wrinkle effect. Moisturizing hyaluronic acid in combination with plant-based glycerin adds an excellent moisturizing effect to the formula.

Directions: Apply the CREAM MASK onto the neck and décolleté. Leave to absorb for 20 to 30 minutes.

TREATMENT SUGGESTION

- Cleansing:** Cleanse with CLEAN & ACTIVE CLEANSING LOTION (Art. No. 201) or CLEANSING GEL (Art. No. 202). Then tonify with CLEAN & ACTIVE TONIC WITH ALCOHOL.
- Peeling:** Apply the PEEL MASK quickly onto the face, neck and décolleté. Avoid the lips and eye area (cover the eyes with cotton pads if required). Leave to absorb for 15 minutes. Do NOT rinse!
- Facial Mask:** Mix the FACIAL MASK with water. Mixing ratio of 1:2 (1 jar MASK and 2 jars of cold water). Apply one mask onto the face and another one onto the neck and décolleté. Apply the FACIAL MASK on top of the PEEL MASK. Leave to absorb for a further 15 minutes. Then remove carefully from the skin and cleanse the skin thoroughly with cool, damp compresses.
- Additional cleansing:** Tonify with CLEAN & ACTIVE TONIC WITH ALCOHOL (Art. No.: 205)!
- Concentrate:** Work the CONCENTRATE into the skin by applying a manupressure massage or lymph drainage.
- Facial Patch:** Place the FACIAL PATCH on the face and apply the CREAM MASK to the neck and décolleté. Leave to absorb for 20 – 30 minutes.
- Finishing skin care:** Remove the FACIAL PATCH from the face. Apply the CREAM MASK with slightly moist hands from the décolleté over the neck up to the face and massage in lightly.
- TIP:** To optimize the treatment results, open the lymphatics from the profundus to the terminus before applying the PEEL MASK to stimulate the lymphatic system!

PEEL MASK

Skin type:
all skin types

Main active ingredients: AHA fruit acid, malic acid, tartaric acid, lactic acid, gluconic acid, glycolic acid, ascorbic acid, salicylic acid
