As indicated earlier the preference is for cash which will allow us to purchase supplies locally. Indications are that wholesalers have supplies in their warehouses. In any event the main port is in operation so stocks can be replenished. Where clubs have already purchased or shipped items we will receive them thankfully. But cash will reduce storage and some other difficulties.

We are trying to work with the Office of Disaster Management. They have a requirement that all relief supplies should be consigned to that Agency. We prefer that supplies provided by Rotary clubs and others for distribution by Rotarians should be consigned to Rotary.

Relief efforts are beginning to show results; Road access has been restored to many villages and it is anticipated that by day's end most villages will be accessible by road though only by 4WD Vehicles in many cases.

It seems that restoration of potable water to many areas is a major challenge as several intakes were washed away and damage to pipes is widespread. Dowasco crews are assessing the situation and restoring what they can now that there is improved road access.

Unfortunately as you may know there were 20 deaths and there are reports (unconfirmed) of some fifty still missing.

We thank you for your support thus far and feel confident that you will be with us in our ongoing recovery efforts,

Thanks and Regards.
