What do we do for businesses?

CCC offers a wide array of funding options for small and medium sized businesses to help grow or operate their business.

Available for Canada and USA.

Small to mid-sized businesses are finding it more difficult to gain access to working capital. Alternative finance companies like CCC give these businesses access to the financing they need by borrowing from private lenders and hedge funds to make loans, purchase receivables and offer other creative ways for these businesses to achieve their goals.

Our clients use this working capital to expand, renovate, buy inventory, advertise, buyout a partner or simply to catch up on bills and taxes. Unlike banks, our process is easy and fast. Repayment is streamlined and automated. Our financing products are flexible and custom made to fit our client's needs.
