

SANITARY DESIGN

ShickUSA designs and engineers process systems that require sanitation at a level that meets or exceeds the 3A sanitary guidelines. From engineering through implementation, Shick provides complete process solutions.

SANITARY

- CIP (Clean-in-Place) Skids
- Metering and Dosing Systems
- Cream Yeast Systems
- Slurry Systems
- Fermentation Systems
- Ingrediator/Liquefaction Systems

PROCESS CAPABILITIES

OTHER

- Bulk Liquid Storage and Delivery
- Tote Systems
- Water Blending
