

INNOVATION IN AUTOMATION

Coffee

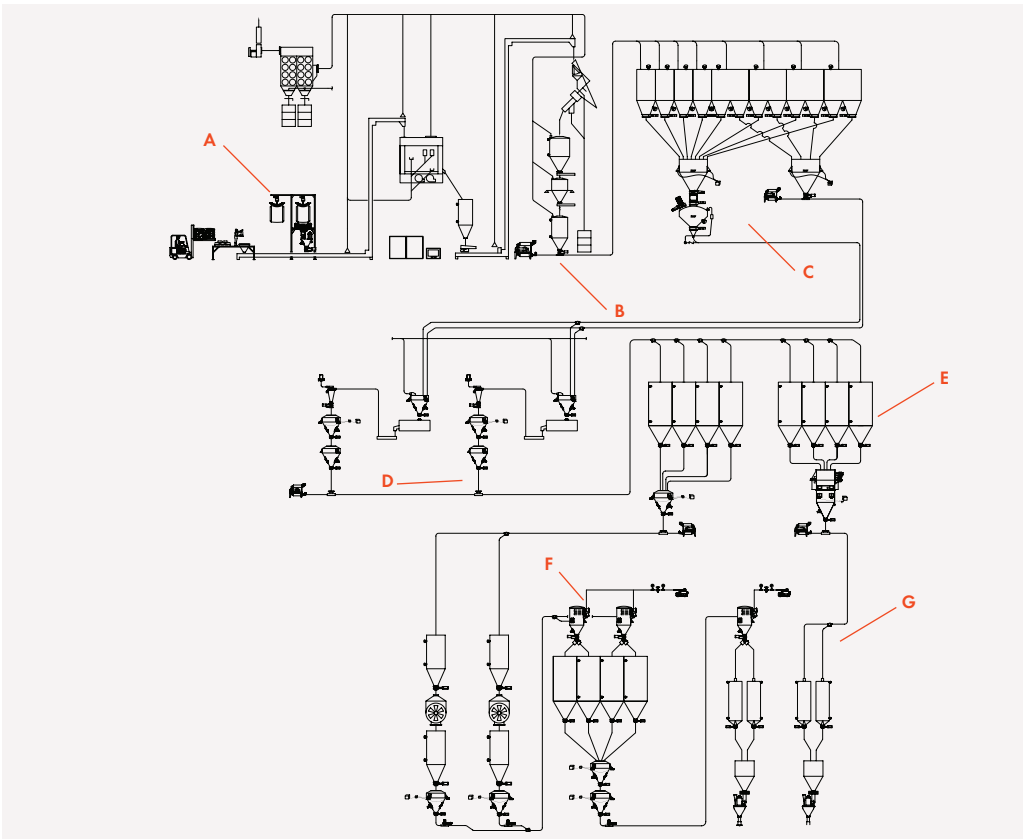

INDUSTRY PROFILE

SHICK[™]
SOLUTIONS

Conveyors to Caffeinated

SOLUTION OVERVIEW

To us, every bean matters. That's why we're dedicated to handling them delicately, from receiving all the way to packaging.

We automate the handling of coffee from the receipt and cleaning of green beans through roasting and on to packaging. Our solutions include dilute and dense phase conveying along with enclosed disc

conveyors to ensure the proper handling of beans through various stages of the roasting process.

We design solutions for some of the biggest brands in coffee. Our comprehensive Shick Solutions help make every sip of your coffee one worth remembering.

We're your coffee connoisseurs when it comes to handling your beans. Our Shick Solutions cover every aspect of the coffee handling process.
