

Markus Wille, R&D Manager, Schoeller Electronics Systems GmbH, Germany

Biography

The author was born in 1962 in Hamm, Germany. He received the diploma in Communications in 1987 at the University of Applied Sciences in Dortmund. The study was focused on RF- and Microwave Engineering. Since 1987 he has been working as a product manager in the product development department of Schoeller-Electronics Systems. He is leading the R&D department since 2012.

He is working on new developments and concepts of printed circuit board techniques, e. g. for flex-rigid circuit boards, complex multilayer and microwave circuit boards as well as on techniques for heat dissipation in printed circuit boards. He is also involved in joint research programs and in cooperative development projects of customers and material manufacturers.
