

PAULO ORTINS

Web and Mobile Consultant

SUMMARY

I have been developing software professionally since 2010 in every side of software development (Web, Mobile and Desktop). During this time I have used several technologies including C#, ASP.NET (MVC and WebApi), EntityFramework, Selenium, Xamarin.Droid, Xamarin.iOS, Xamarin.Forms and Java for Android. I've also used a number of techniques and methodologies like Xtreme Programming, Scrum, TDD, BDD and DDD.

I provide solutions through software and technology, keeping my focus on achieving goals and creating value for clients.

I seek to share knowledge with the development community, speaking at various conferences around Brazil. Many of these talks are available on <http://www.pauloortins.com/community> and my writing about C# and Xamarin on my blog <http://www.pauloortins.com>.

EXPERTISE

- iOS and Android Mobile Apps
- Web Applications
- Agile Methodologies
- Cross-Platform Native Mobile Apps
- Development of Minimum Viable Products
- Software Project Planning
- Software Development
- Software Instrumentation
- Algorithm Design
- Systems Integration

LANGUAGES

- C#
- Javascript
- Java
- Objective-C
- Swift
- XAML
- Python
- Ruby

FRAMEWORKS

- .NET Framework
- .NET Core Framework
- Xamarin.Android
- Xamarin.IOS
- Xamarin.Forms
- Bootstrap
- Knockout.JS
- Angular.JS
- MvvmCross

IDE TOOLS

- Microsoft Visual Studio
- Xamarin Studio
- Xcode
- Android Studio
- Vim
- Sublime Text

PLATFORMS - DEVICES

- Android
- iOS
- Microsoft Azure
- Windows

METHODOLOGIES

- Lean Agile
- Kanban
- Scrum
- Xtreme Programming

DATABASES

- SQL Server
- SQL Azure
- MySQL
- Sqlite
- MongoDB
- Redis

PORTFOLIO
