BEN BISHOP

Senior Lead Mobile Consultant and Architect

SUMMARY

With 15 years of experience as a professional interactive developer, Ben has had the good fortune to work with some of the smartest people and most popular brands in the field using Xamarin Technology. These brands include Coca-Cola, DirectTV, and Anheuser-Busch.

In his spare time, Ben launched a successful line of mobile fitness apps for interval training. He is passionate about improving the developer experience and producing quality software that empowers customers to confidently grow their mobile application platforms.
