BUSINESS ADVISORY

GRADUATE PROGRAM 2016

“

Moyo has taught me that conducting effective business and adding value to a client is more than just the textbook knowledge you acquire while studying, it's about building relationships, it's about truly understanding the client's business need, all along knowing that you have a Moyo team behind the scenes to help you achieve this.

”

**Craig Andrew (2014)**

“

The Moyo Grads Programme was fantastic, everyone is supportive to make sure that you can be the best that you can be based on your strength and weaknesses . The experience gained working at the Client was great, you get the chance to interact with very senior people and the amount of pressure to deliver is not of a Graduate but of a Consultant who can get in there and deliver value.

”

**Kgomotso Phaladi (2015)**

“

It was a steady introduction into the working world. You may get thrown in the deep end but you always had people around you that were willing and able to help you along the way.. It was a steady introduction into the working world. You may get thrown in the deep end but you always had people around you that were willing and able to help you along the way.

”

**Justin Crowley (2013)**

“

My first year at Moyo was amazing. I learned so much in a space of 12 months. I have grown immensely. What I love mostly about Moyo is its culture. Moyo to me was a home away from Home.

”

**Liako Kuoe (2013)**

“

Moyo's graduate program definitely helped me in bridging the gap between university and the working world. Because Moyo encourages us as Graduates to work on real-life projects, they provide us with the opportunity to become familiar with different kinds of organisations, work styles and cultures through practical experience.

”

**Merike Malan (2015)**

“

The organisational culture is what stood out the most for me. The exposure I received to different projects and different corporate organisations during my graduate program has served as a solid and unmatched foundation to a successful career!

”

**Palesa Molawa (2014)**

“

I would recommend Moyo Business Advisory to any graduate who is looking for a company with solid moral values in which you have the freedom to explore different career opportunities with the assistance of world class industry specialists.

”

**Roger de Villiers (2013)**
