

BUNNING SPLICING & RIGGING LTD.

*** SERVING CANADIAN INDUSTRY SINCE 1956 ***

GRADE 70 HIGH TENSILE **TRANSPORT CHAIN**

GENERAL RECOMMENDATIONS: A chain, which features both superior tensile strength and resistance to wear. Suitable for uses in loadbinding, heavy-duty trucking, railways, logging, construction, farming, towing or any application where a high strength to weight ratio is required. With its' high hardness, Transport 7 chain also has excellent wearing properties. It is also an excellent security chain, which is extremely hard to cut with hand tools.

MATERIAL: High tensile carbon steel

FINISH: Yellow chromate

Highly resistant to rust

Clean shotblasted satin finish

DESIGN FACTOR: 4:1

AVAILABLE FROM STOCK!

SIZE	S.W.L. LBS.
5/16" T	4700
3/8" T	6600

LOADBINDERS TO SUIT ABOVE CHAIN

VANGUARD	STD. LEVER BINDER 5/16" - 3/8"
VANGUARD	RATCHET BINDER 5/16" - 3/8"
VANGUARD	NON RECOILING BINDER 5/16" - 3/8"

Non recoil release design lets stored chain tension off easy without the use of a cheater pipe. The center body absorbs the shock of load release while the handle remains in virtually the same position eliminating dangerous handle kick-back.

Always use a reputable name brand of chain and load binders !

Don't take chances using "no name" brands !

THE ABOVE CHAIN IS NOT TO BE USED FOR OVERHEAD LIFTING.
