STAINLESS STEEL CHAIN TYPE 316

GENERAL RECOMMENDATIONS: Type 316 stainless steel chain is a non magnetic, non sparking chain, making it suitable for use in an explosive environment. It is also widely used in the food industry for sanitary reasons and in sanitation applications where corrosion, acids, and chemicals are a factor. This chain is also excellent for marine use in salt-water conditions.

FINISH: Bright

AVAILABLE FROM STOCK !

TRADE SIZE	S.W.L. LBS.
