“ SERVING CANADIAN INDUSTRY SINCE 1956 “

FALL PROTECTION **SHOCK ABSORBING LANYARD**

*The Shock Absorbing Lanyard employs a unique webbing technique which allows a controlled stretch during fall arrest, thus reducing the shock to the wearer, as much as 50% over corresponding 5/8" nylon rope lanyards. When the shock absorbing lanyard receives a force of 600 lbs. exerted on it, an indicator flap pops out to indicate the lanyard has been subjected to a fall, and the lanyard is **NOT TO BE REUSED!!!***

Six foot is the standard length; other lengths and fittings are available.

31 Chauncey Avenue, Toronto, Ontario M8Z 2Z2 (416) 233-3331
