

Looking to Improve Fuel Mileage & Horsepower?

**OUR MISSION IS TO CREATE A MORE FUEL EFFICIENT AND POWERFUL ENGINE SO OUR HARD-WORKING TRUCKERS GET MORE BANG FOR THEIR BUCK**

**OUR STORY**

Established in 2001, Performance Diesel Inc. is a manufacturer of high quality diesel performance products. From the sale to installation, you can count on PDI to provide the very best in customer service and advice. Unlike many competitors, we can install any of our products in our 10 bay, full service diesel repair facility. PDI is dedicated to discovering the best possible combinations of high performance parts and accessories to help you achieve your diesel efficiency and power goals. We are devoted to a continuation of research to provide our customers with the cleanest, smoothest, and most powerful ride available.

PDI is raising the bar for quality service and performance parts.

## IMPROVING MILEAGE & PERFORMANCE

### BIG BOSS INTERCOOLERS

Built with our specifications by Dura-Lite to support 600hp to 900hp applications. Decrease EGT's, an average of 100 degrees, with no boost drop across cooler, and decrease intake manifold air temperature up to 30%. This results in increased fuel efficiency and power.

### BIG BOSS TURBOS

The newest line of big boss turbos are made with an industry exclusive stainless steel turbine housing that offers enhanced airflow and improved performance efficiency. The material used is a very robust design that withstands the toughest heat cycle conditions.

### BIG BOSS EXHAUST MANIFOLDS

Each manifold port is analyzed and tested to provide a balanced flow to the turbocharger. Big Boss® Exhaust Manifolds produce, on average, a 20% air flow increase over a stock manifold, cooling exhaust temperatures by 75-100 degrees and reducing turbo lag time.

### BIG BOSS INTAKE MANIFOLDS

Factory intakes restrict the clean air flow to the engine and allow for more exhaust air to reach the intake. Our Big Boss® Intake is made to allow up to 55% more clean air into the engine, allowing for cooler intake air temperatures and an additional 15-20hp.

### BIG BOSS CAMS

PDI's Big Boss® Cams are designed with higher lift and duration for more power and better efficiency.

For help with any of your performance needs, call 800-511-1231.

### BIG BOSS RADIATORS

Made of high strength, heavy-gauge, rust resistant steel. Our Big BossRadiators are professionally engineered using the latest Solid Modeling CAD and FEA software. They are 100% leak tested under water before leaving the factory.
