Many years expertise supplying screen printed glass components

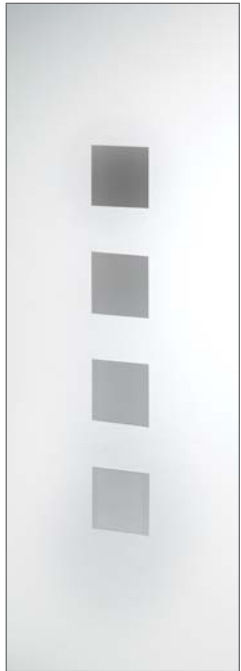

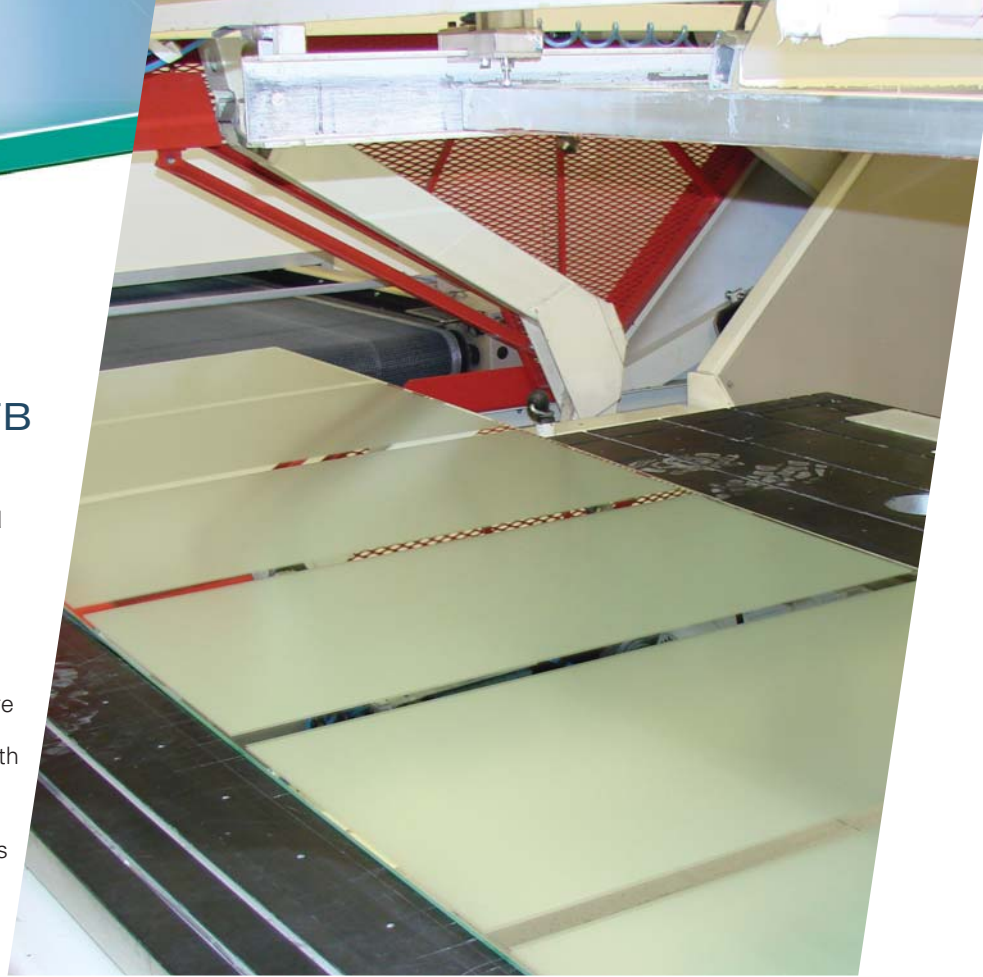

- Toughened screen printed glasses using ceramic glass enamels. Suitable for most kitchen, bedroom, bathroom, furniture, DIY, POS/shop fitting and commercial applications
- Screen printed mirror or annealed lacquered glass, using UV paints giving gloss and etch effects
- Printing capability to maximum 1220 x 2700mm
- Bespoke designs – your ideas brought to life
- Multi-prints

Stock Glass

4mm Frosted Screen-Printed Silvered Float SFB

- Screen printed etch effect mirrors – UV printed etched designs on silvered float stock
- Available in 914/1220 x 2440mm stock plates, safety film backed and protective face filmed
- Designs that you can cut to any size you require
- Choose from our designs or, in consultation with us, produce a range of your own
- Printed lacquered float – see Decorative Effects
