

DO YOU BREATHE

DO YOU EAT ?

Eating and toxIN ?

DO YOU SHOWER ?

Toxins from water are absorbed through the skin,

DO YOU DRINK?

Most water contains arsenic, fluoride, chlorine and a host of other unhealthy toxins.

What is Toxin ?

A *toxin* is an **organic poison**

- 1) It's made by plants and animals.
- 2) **Toxins make people sick.**
- 3) If your appendix bursts, *toxins* are released into your blood stream.
- 4) Also breathing in a *toxin* like ricin will make you very ill.

VS

What is Toxin ?

External (Toxicant):

- **Chemical compound**: organic and inorganic
- **Pollution**: Air, Water, Food and Skin contact
 - Heavy metal
 - Pesticide
 - Exhaust gas
 - Carpet
- Microbial fermentation and excretion
- **Food additives**, food preparation (eg. + high temperature, smoked)

What is Toxin ?

Internal (Biotoxin) :

- **Toxic waste** from metabolism processes
 - CO₂
 - Uric acid, nitric acid
- **Stress** can harm physically and emotionally and results in the production of more toxins
- **Overnight stagnated stool** in the colon produces the largest amount of toxins in the body.

Why do we need to Detox ?

Everyone in US
carries **> 100**
chemical pollutants,
pesticides and toxic
metals in their bodies

PHASE I
This would be like getting your garbage packaged for pick up.

PHASE II
Consider this the garbage pickup. If it's not picked up toxins collect in the body!

No	Herbs	^{Nourish} Function
1	Belleric Myrobalan 	To promote the regular movement of the colon (peristalsis) to enhance the elimination of the toxin.
2	Artichoke leaf 	To increase urine flow

Nourish

If the Phase I & II detoxification pathways become **overloaded**, there will be a build up of toxins in the body.

Thus, we need to nourish liver by increasing the bile secretion to enhance the liver Detoxification processes

DETOX LV SET:
