www.bearbrothersroofing.com

Colorado's Premier Roofing Company

We take safety seriously at Bear Brothers Roofing. We are guided by OSHA regulations and train our workers on a regular basis. It is important to review the basics and keep abreast of the newest technologies found in the marketplace today.

We provide our crews with all the safety equipment needed for the work that is to be done. While others may require their employees to provide their own tools and equipment, we think that is our responsibility to protect our customers by protecting our workers.

ABOUT US

Bear Brothers Roofing is a FULL service construction company. This means we can take any size project from start to finish. We have an effective system for developing the project plans, determining the start to finish work flow, and working within budgetary requirements. We spend time on the details, even the clean up work!

Our project manager's strong sense of responsibility and accountability is only the beginning of what sets us apart from our competition. Though we always have at least two supervisors on site at all times during the construction process, your sales rep/project manager will always be available to be contacted at any time as well as being on site.

Mission Statement

Our company is built on customer satisfaction that comes from providing a quality product, delivered on time, at a reasonable cost. At Bear Brothers Roofing quality is not a word taken lightly from management to journeyman. Our philosophy is based upon the "Total Quality Management" principle of continuous improvement. In administration, this means effective cost controls and qualified relationships with manufacturers and distributors. In the field it means the highest quality craftsmanship in all our applications, which conform and at times exceeds recommended municipal codes and manufacturers guidelines. For our sales and estimating department this means working with our customers which enables them to make informed choices from all of the quality products available in the Colorado marketplace.

We know how valuable your properties are to you and how stressful restoration after a storm can be. All our commercial project managers are licensed insurance adjusters, so we can relieve some of the pressure by acting on your behalf with your insurance company. No matter where you currently are in the process of your claim, we can help.

First, we perform a free inspection to see if you have an insured loss. If so, we can assist you in filing a written claim. Then we meet with your adjuster and, together, assess the damage.

These two-party inspections invariably turn out much more favorably for the property owner. After all, the adjuster is representing his employer, the insurance company. We're there, as equally qualified professionals, representing you.

If you have already filed and your insurance company has denied your claim, or you don't feel comfortable with the settlement, we can call for a re-inspection. Our record for reversing negative decisions and gaining higher settlements for our customers is quite impressive. We will be happy to show you the figures when we meet.

Meticulously following our multistep assessment process, Bear Brothers Roofing will present to you all our collaborated data. With an understanding of the full needs of the project, we will offer a custom fit solution for your restoration needs. All at no cost to you in our effort to earn your business!

STEP ONE

A detailed, onsite inspection of the damage from both the perspective of an insurance adjuster as well as an experienced contractor!

STEP TWO

Obtain an Eagle View™ report of the property. Utilizing Aerial Pictometry, we are able to confirm all roof measurements to the square inch!

STEP THREE

With this obtained data, our project manager will build a detailed report of the inspection.

STEP FOUR

Our project manager will build a complete estimate using Xactimate software. The same software used by 92% of the insurance industry.

Courtyard by Marriott

- Removal & Replacement of 166,000 square feet of EPDM.
- Repair drywall to cupola on top of roof.

AAA County Line Self Storage

1400 E. County Line Road | Littleton, CO

"My project manager helped me with everything from filing the insurance claim to picking colors to deciding on a warranty--he really made the whole process go smoothly."

"I couldn't believe how fast everything was taken care of. I asked for a referral, the rep showed up the next day, and once the insurance was taken care of, he had the materials ordered right away. The crew showed up as soon as the materials did, and were in and out in less than three days!"

"When I filed my insurance claim for hail damage to my roof, my insurance company referred Bear Brothers Roofing to me, for all my storm-related home repairs. I called them to set up an appointment and received an immediate response. After speaking with their sales representative, I signed a contract on Sunday and my roof was replaced on Tuesday! Not only is Bear Brothers a local company, but they have done thousands of jobs in the Denver area. I would highly recommend this company to anyone needing repairs to their home."

"Not only did the job look beautiful and was done in a timely manner, my project manager took care of all the insurance company's and the mortgage company's needs too. I literally had to do nothing, but sit back and watch my roof go from damaged to brand new. I get compliments from family and friends all the time. Again, thank you so much for everything you did for me, you not only gave me a great project, but you made the whole process for me go more smoothly than I could ever imagine!"

"The crews were always on time, working hard, and when they left, not only did the house look great, but the yard and driveway were spotless!"

"We have people on our street who used other contractors, and you can really tell the difference between the Bear Brothers houses and the others--our new roof is gorgeous."

BBB Accreditation

This company has been a BBB Accredited business since June 2001. This means it supports BBB's services to the public and meets our BBB Accreditation standards.

BBB Rating

Based on BBB files, this business has a BBB Rating of A+.

Customer Complaint History

BBB processed a total of 0 complaints about this company in the last 36 months, our standard reporting period. Of the total of 0 complaints closed in 36 months, 0 were closed in the last year.

BBB Program Participation

This company participates in the BBB Identification Program and has agreed to use special procedures including arbitration, if necessary, to resolve disputes.

“ The peak of the mountain is reached by hard work and determination. We at Bear Brothers Roofing strive for that peak by having only the highest standards in quality. ”

Bear Brothers Roofing is a preferred service provider for many insurance companies, including State Farm Insurance.
