Founded the STN soccer camps in 1990 - Created the STN soccer club in 2002

College Coaching Connections across the entire East Coast and beyond

There are a number of things to consider when it comes to joining a Soccer Club and Coach.

“Fun, Enjoyment, Coaching, Leadership, Education and the player becoming a better player should be the biggest components!”

We don't allow Parent coaching - We offer Professionally directed, goal-oriented training and education.

There are plenty of well intentioned parents that have great dreams for their own child...

We offer the alternative...

A professionally run, all inclusive club with programs that support the futures of EVERY Player.

The numbers show that most youth soccer players don't get to the college game

Give yourself the BEST chance to stay in the game..be a major factor on your High School Team and play in College!

“When choosing a club, a team and a coach - you should focus on the coaching and the right environment to support you becoming a better soccer player and a better person.”
